# We want your story!

**Are you – or have you been – involved in any activity where you have come into contact with people who have fled to Sweden? If so, we would like you to share your personal stories and your memories with us.**

People's memories and stories play an important role in helping us to understand the times that we live in. Since autumn 2015 Malmö Museer, the Regional Museum in Kristianstad, Kulturen and the Department of Arts and Cultural Studies at Lund University have been documenting different aspects of the life of refugees and integration. We would really like you to share your personal stories and your memories with us. Your real-life story will become part of the material that exists within the museums' archives. The information you share with us might be used in research, in exhibitions or other types of presentations.

It is up to you to decide what you feel it is important to tell us about. You can write as little or as much as you want. We do not care about spelling, grammar or any other linguistic issues. You can write your story in the language of your choice. And, of course, you can remain anonymous if you so wish. We will be happy to receive anything you have to share with us!

If you would rather talk to us than write, that is also fine. Contact Charlotte or Karin and we will find a time when we can meet.

Do you have any pictures, photos or any other objects that you think are important to your story? Can you tell us about them? We will be happy to copy or take photographs of your material if you want to keep the original.

We would also like to know the following information:

Gender Male / Female / Other
Year of birth
Country of birth
Town of birth
Name – voluntary
Contact information telephone number or email address – voluntary

You can either send your materials by post to:
